America's Finest Show Falling Machines
Special Effects Snow

Falling Snow Shows with Realistic Simulated Snow Flakes * Artificial Evaporating SnowFall Events * Indoor Outdoor Snow Making Machines FX

HIGH RANGE AND VOLUME SNOW MACHINES - EVAPORATES WITHIN 90 SECONDS OF AIR TIME - NO STAINING NO RESIDUE - NO MESSY CLEANUPS NON-ALLERGENIC BIODEGRADABLE - FLAMEPROOF - NONTOXIC - HAS NO SLIPPERY PROPERTIES

Range - High Volume Evaporating Artificial (fake) Snow Machines which sprays a large area with simulated snow that will Evaporate within 30 - 90 seconds of air time. With No Staining, No Residue, No Foamy Messy Cleanups, No Accumulation, No Slippery Properties and is Non-Allergenic, Biodegradable, Flameproof, Nontoxic. Our Certified Snow Technicians has the experience to produce a winter wonderland scene from flurries to a beautiful full blown Snowstorm effect as real as mother nature.

Our system uses Patented Technology devices and fluid for realistic simulated snowflakes for snowfall events both indoor and outdoor. The snow machines use a fluid, which is aerated and blown out of the front of the machine from a modulating sock that creates 4 sizes of light and airy snowflakes. We control the fluid pump to regulate the flake size. We have the safest and most realistic snowfall effects available on the market.

We have high volume snow machines for outdoor snow shows, multi-use medium volume machines, and our latest unit which is the slickest streamlined machine on the scene today, which is a quiet snow machine that has both high and low volume options with DMX flake control on board. This new unit is a marvel for outdoor Malls, indoor stage productions, low ceiling rooms, and ballroom entranceways. We can also supply the very quietest snow machine, designed for stage, movies, and live performances where noise makes the difference (68db from 3ft away). Another snow machine we offer is our Mega machine; this **is** the most powerful snow machine. This unit was designed for indoor mega-large venues.

- Snow machines can be used continuous throughout the hour(s)
- Effect fans extra
- DMX cable from machine to machine included
- DMX controller included
- One gallon fluid each machine, addition fluid at 50.00 a gallon. One gallon last 1:00 – 1:30
- Tripods extra

Machine options are differently priced. Let us bid a proposal for your needs. With a huge snow fall event you may need to use 6-8 machines.

The higher the machine the longer and wider the throw will be produced.

Mobility Snow machines 275.00 each 550.00
